

# STRATEGIC PLAN 2018 - 2021

## LONG TERM PLANNING

Long-term planning that integrates community needs and industry best practice

## INFRASTRUCTURE DELIVERY

Deliver the Territory's Infrastructure Program and maintain its Infrastructure Portfolio

## QUALITY SERVICES

Deliver innovative, well regulated, safe and sustainable services

## CONTEMPORARY ORGANISATION

Create an organisation with the values, capacity and capability to deliver effective services

### Our Vision

To drive the sustainable, economic and social advancement of the Territory through land use and transport planning, infrastructure investment, building regulation and effective logistic supply chains.

### Our Purpose

To work with Territory businesses, industry and the community to plan, regulate, construct and maintain integrated sustainable infrastructure, developments and services across the Northern Territory.

### Our Strategic Objectives

1. Long-term planning that integrates community needs and industry best practice
2. Deliver the Territory's Infrastructure Program and maintain it's Infrastructure Portfolio
3. Deliver innovative, well regulated, safe and sustainable services
4. Create an organisation with the values, capacity and capability to deliver effective services

Each priority has a variety of actions which are linked to Government's Strategic Themes.

Investing in the bush	Jobs and economy
Putting children at the heart of Government	Safer and vibrant communities
Trust	Greening and vibrant cities
Investing in our staff (DIPL Theme)	

### Our Organisation

As an organisation we comprise hard working, professional public servants, committed to making a difference to the community we serve. Our ability to deliver services to the Territory requires our staff to work collaboratively across their diverse work areas.

Provide a more transparent and planned approach to lands and planning policy in the NT

Deliver Government's vision for planning across the Territory

Deliver and support Darwin and Alice Springs CBD revitalisation

Deliver the Territory Wide Logistics Master Plan

Implement the Northern Territory Road Safety Action Plan - Towards Zero

Plan for Weddell and Cox Peninsula in partnership with land owners

Support the NT Planning Commission to fulfill its strategic planning role for the Northern Territory

Plan and maintain the Territory's infrastructure portfolio including delivery of Government's extensive infrastructure program ensuring a rolling pipeline of works

Support the local economy, jobs and construction through value for the Territory procurement processes

Promote Government's infrastructure priorities and achievements as outlined in the 10 year Infrastructure Plan

Deliver improvements to transport infrastructure including roads, bridges, barge landings and aerodromes

Support the development and implementation of Government's Aboriginal Contracting Framework

Create a safer, more productive contractor environment by ensuring compliance with safety standards and requirements

Plan for and manage transport infrastructure assets to ensure these meet the needs of the Territory

Implement contemporary regulatory frameworks that support innovation and efficiency, reduce red tape and deliver safe outcomes, in particular:

- Review Building Regulatory Framework
- Progress Swimming Pool Safety Reform
- Progress Planning Reform

Timely planning and development approvals

Enhance our service delivery models to reflect the changing needs of our clients and our business

Provide a safe and secure public bus network

Improved service delivery and increased online service options at Motor Vehicle Registries

Develop and deliver a regulatory model to facilitate Ridesharing in the Northern Territory

Develop policy options which support autonomous and electric vehicles in the NT

Create workplaces that foster innovation and promote excellence, underpinned by a culture of collaboration

Ensure our worksites and working arrangements prioritise the health and safety our staff, where risks are identified and effectively managed

Develop programs to recruit and retain quality staff, develop leadership and workforce capability, including a focus on Aboriginal employment

Explore and develop new ways of doing business that create efficiencies in our operations and enable agile responses to changes in our environment

Maintain high standards of governance and accountability with a focus on continual improvement in our performance reporting and delivery

### Our Values

- Commitment to Services
- Ethical Practice
- Accountability
- Diversity
- Innovation
- Respect
- Impartiality
- Collaboration
- Excellence
