

How to load DIPL's dropdown menu to AutoCAD application

1. Unzip CivilwSurveyV3.zip to local C drive (C:\NTGAutocad folder).
2. Export your current profile to C:\NTGAutocad\Original.arg
 - Launch AutoCAD application
 - In the command line type _OPTIONS follow by Enter key
 - On Options dialog window select Profile Tab
 - Click on Export button to export current profile
 - Browse to C:\NTGAutocad folder
 - Save current profile as Original.arg
3. Import NTG Civil Design V3.arg profile
 - From above step 2 on Options window select Profile Tab
 - Click on Import button to import profile
 - Browse to C:\NTGAutocad folder and select NTG Civil Design V3.arg file
 - On Import Profile window click on Apply & Close button
 - On Options window select NTG Civil Design V3 and click Set Current button
4. Loading DIPL's dropdown Menu
 - In the command line run MENUBAR and set the value to 1
 - In the command line type MENULOAD
 - On Load/Unload Customization window click on Browse... button
 - Select C:\NTAutocad\DCIcivil.cuix file and Click on Open button
 - On Load/Unload Customization window click on Load button to load DCIcivil.cuix menu
5. For DIPL's Menu to work, the new dwg drawing will need to create from NTG.dwt template
 - Select File → New from dropdown menu
 - Use C:\NTGAutoCAD\NTG.dwt template

To restore previous preference configuration please refer back to step 3 and Import C:\NTGAutoCAD\Original.arg file.
